

Business Intelligence Expert m/f/d

TUBEX Russia, 17th of July 2020

As the world market leader in the production of aluminium tubes, our focus is on long-term success – and the key to this success is our team of 1,000 employees whose passion and commitment are the driving force behind our company.

Are you looking for a new challenge? Then send us your application and you could soon be part of our team!

The focus of your exciting work as a **Business Intelligence Expert** is that all business-relevant information and processes of the company can be evaluated in the best possible way and used in a success-oriented manner.

Your tasks

- holistic support and further development of the Enterprise Resource Planning System (ERP) and the Manufacturing Execution System (MES)
- development of data models and reports to optimize company-wide reporting
- the analysis and optimization of existing business procedures and processes
- the active setting up and implementation of projects in a production-related environment

Your qualifications and skills

- completed training in the field of business informatics, computer science or automation technology with ideally three years of relevant professional experience
- experience in the areas of ERP, MES and their areas of application
- knowledge of handling databases and their query languages
- experience with business intelligence and visualization, preferably with MS Power BI
- project management skills in theory and practice
- practice in an industrial environment desirable
- excellent problem-solving skills
- knowledge of spoken and written English
